Fixed Income : Auction Calendar

Reopening of 15-year MGS 11/33 prints strong BTC of 2.792x

The pre-auction market following the auction announcement on Tuesday saw WI quote 4.10-06% and subsequently narrow to 4.08-06% with prints done at 4.07% area. This auction saw solid BTC ratio of 2.792x compared to the recent new issuance of 7Y benchmark GII 3/26 last week which notched a BTC ratio of 2.33x. No surprises noted as this exercise almost notched a similar BTC ratio viz-a-viz its equivalent previous benchmark auction re-opening in August 2018 (BTC: 2.612x). The total issuance size of RM3.5b (inc private placement) was slightly smaller than our expectations. The summary of tender results are as follows:-

Bid to Cover : 2.792x High : 4.071% Average : 4.065 % Low : 4.058% Cut off : 40.00%

Upbeat investor demand results in lower bond yield...

The mere 1.3bps tail for this tenor was reminiscent of strong demand from both offshore and local institutional investors due to renewed global growth concerns. The average yield of 4.065% is low compared to the previous 15Y tender of 4.498% last August. This puts the MGS 11/33 at a mere 3bps discount currently when compared against the Islamic equivalent i.e. 15Y benchmark GII 6/33. (Note: the historical extrapolated yearly mean spread between both Islamic and conventional 15Y benchmarks averages between 7bps). Up next in the auction calendar is the new issuance of the 5Y GII 10/24 with a total forecasted issuance size of RM4.0b.
