### Fixed Income : Auction Calendar

#### Reopening of 7-year MGS 7/26 prints soft BTC of 1.510x

The pre-auction market following the auction announcement on Thursday saw WI quote at a wide 3.75-3.65% before finally narrowing to 3.73-3.71% with no prints done. This auction saw soft BTC ratio of 1.51x, its lowest in three years. This was much lower compared to the 2.31x garnered from new issuance of 5Y benchmark GII 10/ 24 in mid-April, and was also weaker viz-a-viz its equivalent previous benchmark new issuance auction in January 2019 that notched a BTC ratio of 2.216x. The auction print-size of RM3.0b was within our expectations, but another RM0.5bn was sold via private placement. The summary of tender results are as follows:-

Bid to Cover : 1.510x

High : 3.777%

Average : 3.757 %

Low : 3.735%

Cut off : 75.0%

#### Longer tail reflects limited investor profile despite lower yield...

The 4.2bps tail for this tenor somewhat reflected weaker demand which could be attributed to the series of negative newsflows recently. The average yield of 3.757% is low compared to the previous 7Y tender of 3.906% back in January. This puts MGS 7/26 at a mere 2bps away from its similar-tenor Islamic counterparts (GII 3/26). Up next in the auction calendar is the new issuance of the 30Y GII 11/49 with a forecasted auction issuance size of RM3.0bn.
