

Global Markets Research Fixed Income : Auction Calendar

Re-opening of 30-year MGS 6/50 prints BTC of 2.28x

Post-announcement, WI opened at 4.35/4.28%, and subsequently narrowed to 4.30/4.25% levels with trades circa RM20m, printed between at ~4.28% area. This auction saw total bids submitted amounting to RM4.56b. The bidding metrics which maintained above the 2.0x handle was stronger compared to its last and equivalent benchmark offering in March 2021 with bids clocking RM4.05b (BTC ratio: 2.023x). The total offering of RM4.0b (auction RM2.0b + private placement RM2.0b) was slightly lower than our forecast. Summary of tender results are as follows:

Bid to Cover: 2.28x High: 4.30% Average: 4.289% Low: 4.259% Cut-off: 55.27%

This 30Y MGS auction saw steady demand mainly from real-money investors e.g. lifers; underlining strong demand whilst shrugging-off recent supply concerns and earlier updates on the local political landscape... The short tail of 1.1bps caught many by surprise as the auction demand exceeded expectations despite the private placement exercise of RM2.0b. Participation was mainly from insurance companies followed by other institutional funds. The yield offered was ~ 20bps lower compared to its recent equivalent auction which averaged 4.486% in March this year. This benchmark is deemed to be **fairly valued** if compared to the 30Y Islamic benchmark GII 11/49 which was last done at 4.46% levels. (Note: the annualized historical mean spread between the Islamic and conventional 30Y benchmarks is 15-16bps; unadjusted for duration). Up next on the calendar is the reopening of 7Y GII 8/28 with our earlier projected issuance size of RM4.5b.
