Fixed Income : Auction Calendar

Re-opening of 15-year GII 7/36 prints BTC of 3.056x

Post-announcement, WI opened at 4.05/3.95%, and subsequently narrowed to 3.98/96% levels with trades circa RM80m printed between 4.00-3.97% levels. This auction saw total bids submitted amounting to RM7.6b. The bidding metrics exceeded last and recent equivalent offering in April 2021 whose bids registered RM6.36b (BTC ratio: 2.545x). The total offering of RM4.5b (via RM2.5b auction + RM2.0b Private Placement) was in line with our forecast. Summary of tender results are as follows:

Bid to Cover: 3.056x

High: 3.992%

Average: 3.982%

Low: 3.969%

Cut-off: 96.00%

This 15Y GII auction saw solid interest especially from real money investors i.e. insurance companies whilst being awarded at a decent yield @ 3.982%...

The short tail of a mere 1.0bps, reflects solid demand, especially from insurance companies this auction issuance size of RM2.5b. Nevertheless, the auction was a departure from recent comparisons; as the yield offered was ~ 3bps lower instead compared to its recent auction of 4.01% average in April this year. This benchmark is undervalued if compared to the 15Y conventional benchmark MGS 5/35 which was last done at 3.83% levels. (Note: the annualized historical mean spread between the duration-adjusted Islamic and conventional 20Y benchmarks is ~ 4bps). Up next on the calendar is the reopening of 5Y MGS 11/26 with our earlier projected issuance size at RM4.0b.

MGS/GII issuance pipeline in 2021
