### Fixed Income : Auction Calendar

#### Re-opening of 30-year MGS 6/50 prints BTC of 2.459x

Post-announcement, WI opened at 5.10/4.95% and tightened to 5.02%/4.96% whilst eventually moving lower. About RM30m worth of trades were reportedly done at 4.97% and subsequently 4.95%; before closing at 4.965/93% levels. This auction saw total submission of bids amounting to RM6.15b with a BTC ratio of 2.459x, a tad higher than its last similar auction exercise held in February 2022 (BTC ratio: 2.423x, total bids: RM6.06b). The total offering of RM2.5b (plus additional RM2.5b private placement) was higher than our earlier forecast yet within sight of our YTD projected issuance size of RM85.5b. Summary of tender results were:

Bid to Cover: 2.459x

High: 4.974%

Average: 4.959%

Low: 4.930%

Cut-off: 30.00%

***This 30Y MGS auction saw strong demand by investment institutions looking for yield pick-up at almost 5.0% handle coupled with the intention on matching longer-term liabilities with similar-tenured assets***

The short tail of 1.5bps was reflective of strong participation mainly from institutions such as pension funds and insurance companies. The yield offered for the bond at 4.959% is ~45bps higher than its last auction which averaged 4.505% in February 2022. This benchmark may be **perceived to be fairly valued** when compared to the relatively new 30Y Islamic benchmark equivalent MGS 5/52 which was last done at 5.05% levels (Note: the historical annualized mean spread between the **current/previous** Islamic and conventional 30Y benchmarks unadjusted for duration is ~12bps/8bps respectively. Nevertheless, it offers a **notable yield pick-up** for end-investors. Up next on the calendar is the re-opening of 10Y GII 10/32 with our projected issuance size of RM5.0b.

MGS/GII issuance pipeline in 2022
