Fixed Income : Auction Calendar

Re-opening of 10-year MGS 7/35 draws a moderate BTC of 1.924x

Post the tender announcement, WI opened at 3.57/55%. About RM200m of the WI was traded between 3.575% and 3.550%, and it was quoted at 3.572/568% prior to the auction cut-off. This auction saw decent interest, with bids totaling RM5.77bn tendered, resulting in a moderate BTC ratio of 1.924x, and cleared at an average yield of 3.572% with a tail of 0.7bps (the previous new issuance of the MGS 7/35 in June cleared at 3.476% with a BTC of 3.008x and a tail of 0.4bps). The total offering of RM3.0bn for this re-opening was in line with what we were expecting, and brings the total issuance size outstanding to RM8.0bn. Summary of the tender results are as follows:

Bid to Cover: 1.924x

High: 3.579%

Average: 3.572%

Low: 3.560%

Cut-off: 79.00%

This 10Y MGS re-opening saw decent demand, with a moderate BTC of 1.924x. Valuations look marginally attractive relative to GIIs, and from a term premium perspective

The auction was somewhat decent, drawing a moderate BTC of 1.924x, with interest seen mostly from banks. The historical mean spread between the generic Islamic and conventional 10Y benchmarks over the past 12 months has been around 1.9bps, so at the current valuation of 0.2bps, the MGS looks slightly attractive. From a term premium perspective, the 10Y sector of the MGS curve also appears to be a tad cheap, with the current MGS 7s10s spread at 7.4bps which compares to an average of 6.7bps over the past year. This concludes the government bond auctions for the year, with total gross bond issuance totaling RM168.5bn, slightly less than the government projection of RM170.5bn during the 2026 Budget tabling. For the coming year, gross issuance is expected to rise to RM186.0bn, mainly as a result of higher bond maturities.

MGS/GII issuance pipeline in 2025
