## Notes

1. Hong Leong SMART Protect Premier Insurance is a limited pay investment-linked plan that matures at age 100.
2. Before you sign up for this policy, you should be satisfied that this policy will best serve your needs and that you can afford the premium payable under this policy. You should assess the suitability of the product in relation to your financial goals and risk appetite.
3. You are advised to study the sales illustration, Product Disclosure Sheet and Fund Fact Sheet, paying particular attention to the nature of investment risks and non-guaranteed benefits of the plan that you intend to purchase.
4. The rates of insurance charge are guaranteed.
5. Since in the initial years the top-up facility will allocate a higher amount towards the purchase of units, you can maximise your investment value by minimising your Annual Target Premium and maximising your top-up amount.
6. Once your account value has accumulated a substantial amount of units, you may opt for a “premium holiday” where you do not need to pay the premiums so long as there are sufficient units to pay the insurance and service charges. However, please note that there is a possibility of your policy lapsing when the required charges, including rider charges, exceed the value of units available.
7. Please note that if you purchase too many unit deducting riders, the rider charges may deplete the investment-linked fund units.
8. Personal tax relief are subject to eligibility and approval of Inland Revenue Department.
