Important Note: This product is underwritten by Hong Leong Assurance Berhad, an insurer licensed under the Financial Services Act 2013 and regulated by Bank Negara Malaysia.

**1. What is this product about?**

- <sup>[1]</sup> This is an investment-linked plan with premium payment term of three (3) years and policy coverage of twenty-five (25) years.
- Upon the first occurrence of death/Total and Permanent Disability (TPD) prior to attaining age sixty-five (65) of the Life Assured, the Death/TPD Benefit payable shall be the higher of Basic Sum Assured or Account Value at the Next Valuation Date immediately following the date of death/TPD.
- To maximise your investment value, your total basic account premium would be apportioned into 30% of basic plan premium and 70% of Regular Top Up Premium.
- The policy value of the investment-linked plan depends on the price of the underlying units, which in turn depends on the performance of your chosen fund.

<sup>[1]</sup> Your insurance charges (deducted from the account value) will increase as you get older. In the later years, it is possible that the accumulated account value will not be sufficient to pay for your insurance charges and policy fee due to poor investment returns or withdrawals, which will result in your policy being lapsed. You may need to top up your premium or reduce your withdrawal (if applicable), if you want to continue with your insurance policy.

**2. What are the covers/benefits provided?**

The Basic Sum Assured for this plan is RM and the duration of the coverage is twenty five (25) years or upon termination, whichever occurs first.

**Death and Total & Permanent Disability (TPD) Benefit**

Upon the first occurrence of death or TPD (prior to attaining the age of sixty-five (65)) of the Life Assured, the death or TPD Benefit payable shall be the higher of Basic Sum Assured or Account Value at the Next Valuation Date immediately following the date of death or TPD. TPD Benefit is payable in accordance with the company's TPD provision.

**Provision for Juvenile**

In the event of the death or TPD of the Life Assured occurring before the age of five (5), the Basic Sum Assured shall be reduced as follows:

Age at Death/TPD (last birthday)	Percentage of Basic Sum Assured Reduced to
30 days - 1 year	20%
2 years	40%
3 years	60%
4 years	80%

**Maturity Benefit**

Upon survival of Life Assured at the end of the policy term, a Maturity Benefit equivalent to the Account Value shall be payable.

**Reminder:** Please read the Sales Illustrations and Fund Fact Sheet which includes product benefits and objectives of the investment-linked fund. It is important to select a plan or a combination of funds that suit your financial goals and risk profile.

It is important that you receive and keep the receipt(s) of your payments as proof of payment of premiums.
