## 3. What is the Base Rate (BR)?

The BR we offer on this product is made up of two parts, our benchmark cost of funds (COF) and the Statutory Reserve Requirement (SRR) cost imposed by Bank Negara Malaysia. Our benchmark COF reflects the cost of raising new funds in prevailing market funding conditions based on the 3-month KLIBOR and customer deposit rates.

## 4. What are the possible scenarios to trigger a change in the BR?

Our BR can rise or fall due to changes in the benchmark COF and changes in the SRR. Changes in the benchmark COF could occur due to changes in the Overnight Policy Rate (OPR) as decided by the Monetary Policy Committee of Bank Negara Malaysia, as well as other factors such as market funding conditions, future interest rate expectations and industry deposits trend.

**5. Historical benchmark COF since December 2015.**
