# WAYS TO MAKE

## EXTRA POCKET MONEY AS A STUDENT

**“WAIT... MONEY DOESN'T GROW ON TREES?”**

This idiom is used to convey the idea that money does **not** come freely and one must work hard to earn it.

Though it may not be possible to get a proper job just yet, there are still ways for you to earn extra pocket money by helping your family or community.

With the allowances you get from your parents, you will be able to spend on your wants and needs, while also setting aside your remaining for savings.

### WHAT CAN I DO AS A STUDENT TO EARN EXTRA POCKET MONEY?

**THERE ARE SEVERAL WAYS YOU CAN EARN POCKET MONEY WHILE BALANCING YOUR STUDIES. HERE ARE SOME WAYS YOU CAN TRY!**

#### HELPING WITH HOUSEHOLD CHORES

Do household chores such as laundry, apart from the standard or routine. Offer yourself to wash your parent's car or clean up the garden. You can also help your neighbours by sweeping their yard or walking their pets.

#### STUDY HARD AND SMART

Discuss with your parents to reward you with an extra pocket money for excellent examination results or exemplary behaviour. It could be you promising your parents that you will study hard to get good results for your examination or that you portray good behaviour by treating people around you nicely and with respect.

#### HAVE AN ENTREPRENEURIAL MINDSET

When you have the opportunity to start a simple business under your parents or teacher's supervision, take up the chance! You can ask your parents to help you open up a mini stall in front of your house to sell lemonade or offer to tutor your younger siblings.

**SO NOW THAT YOU HAVE SOME IDEAS ON HOW TO EARN EXTRA POCKET MONEY, CHALLENGE YOURSELF AND TRY OUT AT LEAST ONE OF THESE WAYS. REMEMBER, WHEN YOU GET TO EARN EXTRA POCKET MONEY, YOU GET TO SPEND FOR YOUR WANTS AND NEEDS.**
