WHAT DOES

SUCCESS

MEAN TO ME?

Over the last 11 months, we've picked up lots of important tips about money and making smart choices. It's not just about budgeting and saving; it's also about setting goals and reaching them.

Today, success is often seen as having stuff and accomplishing things, and that's partly true. Money can buy things that make us happy, like a nice home or studying in another country. But by just having money doesn't guarantee a successful life.

Everyone has different goals, whether it's getting better grades or winning a sports competition. The key is figuring out small actions you can do every day to achieve those goals.

HERE ARE SOME STEPS TO SUCCEED WITH YOUR LIFE GOALS :

1 LIST YOUR GOALS

Plan out when you'll work on your goals, and put it where you can see it every day.

2 BREAK IT DOWN

Big dreams can be scary, but if you break them into smaller steps, it becomes more manageable. For instance, if you want to be a great artist, practice drawing a bit every day.

3 CHECK YOUR PROGRESS

Keep track of what you're doing and adjust if needed. If your actions aren't helping you to reach your goals, make changes.

Remember, success is different for everyone. Stay true to yourself, follow your dreams with passion, and stay positive. The journey might be tough at times, but with patience, you'll achieve great things. Embrace your goals, and you'll be on your way to a bright future!
